Pricing
All prices in this catalog are effective February 1, 2013. Prices shown are suggested retail except where otherwise noted. Retailer discounts can be found in our terms and conditions sheet, or by calling your Whitehall Products Sales Representative. Prices are subject to change without notice.

Crafted from recycled materials since 1941!

Being environmentally conscious is not a new concept at Whitehall Products. Since 1941, our products have been handcrafted from recycled materials — primarily aluminum. Through the years we have maintained highly efficient production processes that minimize the use of energy and the generation of post production waste.

Most manufacturers would define their business in terms of converting raw materials to finished goods. At Whitehall Products, we recycle materials from one use to another; Yesterday, Today, and Tomorrow.

Winds of Time

Centuries ago, weathervanes were one of the first instruments to detect changes in the weather by pointing in the direction from which the wind was blowing. The Tower Of Winds in Athens, Greece (48 BC), topped with its Triton weathervane, is among the earliest archaeological examples. Over the years, a variety of ornaments have been created to display various cultural, religious, and patriotic themes.

Whitehall Weathervanes

Whitehall Products, the world’s largest manufacturer of weathervanes, offers over 100 different styles. Many styles include a variety of color choices such as traditional black, aged verdigris or antique copper, polished copper ornaments, gold-bronze ornaments, and even hand-painted ornaments. Whitehall’s more than 70 years of weathervane making experience assures you will receive a carefully crafted and meticulously detailed weather instrument that will provide a lifetime of enjoyment.

From huge, full-bodied Classic Directions to 24” Accent Directions, Whitehall is your complete source for all of your weathervane needs.

“Customer Service is the face of Whitehall. As a service representative I act as a voice for our customers; bringing the company together with consumers’ needs, desires, and concerns. The rewarding aspect of my job is the fact that I build relationships while also maintaining customer satisfaction.”

~ Stephanie Perez, Customer Service

Did You Know?
Whitehall Products is the maker of the world’s largest weathervane!
Erected near the shores of White Lake, just a few short blocks from Whitehall Products’ manufacturing plant, is the world’s largest weathervane. Built by employees of Whitehall Products, the weathervane stands 48 feet tall, with a 26 foot arrow that will point into the wind with the slightest breeze. The schooner ornament was chosen to symbolize the lumbering and shipping heritage of the area.

Traditional Directions and Accent Directions Weathervanes mount to the cupola using the included adjustable roof mount base.
Gardening Sales Continue to Bloom
The aging baby boomer generation has been given credit for the continued advancement in garden product sales. Nearly two-thirds of all gardeners are 45 years or older. Over the next 15 years, the number of people 45–65 years old will increase at a rate 2.5 times greater than the total population growth rate. This dramatic increase will ensure dynamic growth for lawn and garden activities and sales over the next 15 years and beyond. Regardless of the type of business, retailers are beginning to realize that two out of every three consumers that shop their store are participating in some form of gardening activity. This has created tremendous opportunity for the marketing of impulse products for gardeners.

Whitehall Garden Accents
Whitehall’s decorative garden accents cover a broad range of products including planters, birdbaths, Nature™ Hooks, hose holders, and lanterns.

“Thirty years of experience at Whitehall has given me the chance to be a part of a multitude of developments. Working in hand-painting, I get to see many attractive designs across a wide spectrum of products. My favorite has to be the Rose Birdbath & Pedestal combination. The detail that is displayed is so lifelike, it really gives a feeling of elegance just like the real flowers.”

~ Cindy Kroll, Painter

Bird Feeding is Big Business
With over 52 million participants, the popularity of bird feeding as a hobby is second only to gardening. Nearly 80% of all bird feeding enthusiasts are 35 years or older and over 50% are college educated. It is expected that bird feeding will rapidly grow as more baby boomers turn 50 and look to less strenuous leisure activities. This opens up opportunities for upscale, decorative bird feeders.

Whitehall Bird Feeders
The elegant designs of Whitehall Feeders have high perceived value, and price points for Whitehall feeders are very affordable. The broad range of styles include 6” and 12” tube style feeders, Silhouette feeders, garden bird feeders, and Artisan Suet feeders. Whitehall Bird Feeders meet the needs of today’s consumers for decorative, fully functional, metal feeders at value prices.

“Whitehall has a large variety of very attractive products to offer. I enjoy building relationships with my retailers, learning about their customer base, and finding innovative ways to increase their sales with our quality products. We are able to offer something for nearly everyone.”

~ Dawn Rotta, Inside Sales

Timeless Timekeepers
For centuries, sundials have been used to mark the passage of time while reminding us of the rhythms of our universe. While modern day timepieces have long since replaced the practical usefulness of the sundial, there is a sense of earthen nostalgia that makes sundials appropriate as functional garden accents.

Whitehall Sundials
Whitehall commemorates this ancient clock, which has survived the test of time, by offering an elegant collection of uniquely styled sundials. Each piece is crafted from rust-free recycled aluminum and carefully finished with weather-resistant paints to withstand any climate.

From standard styles to combination sundial/birdbaths, Whitehall’s variety is unmatched in the marketplace. Our attractive gift packaging and efficient merchandising displays make selling sundials easy and profitable. Make Whitehall your one source for all of your sundial needs.

“Shipping is by far my favorite department. Orders are securely packaged and I send them down the line for a shipping label. It’s exciting to see every order go out the door. You know there is going to be an eager customer waiting to get their package. It feels good to know that I am part of ensuring a damage-free delivery to our valued customers.”

~ Alicia Hain, Shipping

Accents for the Elegant Home
Whitehall Home Accents include decorative all-weather clocks and thermometers, patriotic wall eagles and flagpole eagles, welcome mats and country bells.

Keep Time with Style
Whitehall Clocks & Thermometers combine functional quality with a unique decorative flair and may be used indoors or out. The rust-free durability of aluminum, upscale paint finishes, and unique designs all combine to give Whitehall Clocks and Thermometers a high perceived value. Each Whitehall clock and thermometer is completely assembled and arrives in attractive window display packaging.

Exterior Expressions
Traditional exterior décor such as wall eagles, welcome mats, and country bells continue to be strong selling products as more people look for decorative and functional home accents to personalize the exterior of their homes.

“As a molder at Whitehall, I am the first person in assuring a quality product to the consumer. Molding is a part of the foundry where I form sand around a pattern to make an impression of the product. It is my responsibility to approve or reject every mold before it is poured with aluminum.”

~ Dan Gipe, Molding
• Hand-cast from recycled, rust-free aluminum
• Fully assembled and tested
• Hanger hardware and care instructions included
• One “AA” battery included
