Welcome

Thank you for choosing Special Lite Products.

The success of Special Lite Products is a direct result of our dedicated staff, our loyal customers, and our commitment to providing unique, quality products at an affordable price.

Our mission:

- Ymaintain a high level of quality*

We are very excited to offer to you our latest catalog. This catalog will showcase our broad range of products including Families of mailboxes, outdoor lighting fixtures, and address markers that match or complement each other to create a unified landscape for a home. We also have provided a Visual Guide for our curbside mailboxes to aid in the selection of just the right combination of mailbox and post.

Whether you sell one item at a time or entire packages to Master Planned Communities, this catalog, along with our products, is certain to be an asset to you and your business.

*Special Lite Products-
Delivering Quality Every Day*

Special Lite's mailboxes have quality you can see.

Special Lite Products' cast aluminum mailboxes have several outstanding features that are obvious when handling one of our products. The extra thick walls and solid construction are the first things you will notice. The rust proof hinge and magnetic catch that secures the door comes to your attention next. As you handle it, the attention to detail becomes apparent in the deeply cut, embossed designs and hand applied antique finishes. Then there are the things you can't see: rust proof construction and a maintenance free Powder Coated finish. All of these features add up to a mailbox that will out last and out perform any other mailbox available.

Berkshire Mailbox

The Berkshire Mailbox presents an impressive face. The one piece cast aluminum door features deeply cut details with a rich, leather grain textured panel. The stainless steel spring hinge and magnetic catch will keep the door secure and the rust proof cast aluminum body creates a weather resistant mailbox.
