

Instructions for a SMB1 Lighting Pole

IMPORTANT NOTE: Each SMB1 Pole Section & Base Ring is custom fitted together during finishing. Care must be taken by the installer to ensure each Pole Section is matched with the Base Ring it shipped with. Line up the two Alignment Marks (†) on the Base Ring and the Pole Section to ensure proper bolt installation. To confirm this, the Electrical Access Door will align with the Triangle markings (‡) engraved on the Base Ring. A liquid thread-lock is recommended for use on all hardware.

***SMBJ12 Mounting kit sold separately.**
 SMBJ12 Mounting kit includes:
 3-12" L-Bolts 1/2"
