

Aluminum Mailboxes - Standard System

2230

2220

2218

STANDARD SYSTEM REAR LOADING

Salsbury 2200 series standard system aluminum mailboxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a five (5) pin cylinder cam lock with two (2) keys. Standard system aluminum mailbox units are designed to stack two (2) high and mount adjacent to each other or between wall studs. All units have the same outside dimensions. Alternative locking systems are available - see aluminum mailbox options on page 39. The mailbox compartments have open backs (hinged locking rear covers #2250 are available as an option upon request) and are constructed of 20 gauge steel. Standard system aluminum mailboxes are ideal for use in colleges and schools, private postal centers, government agencies, corporate mailrooms, military bases, police stations and many other applications.

Aluminum Mailboxes - Rack Ladder System

RACK LADDER SYSTEM - REAR LOADING

Salsbury 2200 series rack ladder system aluminum mailboxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a five (5) pin cylinder cam lock with two (2) keys. The mailbox compartments have open backs (rear covers for a column of rack ladder mailboxes #2251 and for individual rack ladder mailboxes #2252 are available as options upon request) and are constructed of 20 gauge steel. All units have the same outside dimensions. Rack ladder system aluminum mailbox units are designed to be installed between rack ladders (#2200). The rack ladders support five (5) mailbox units to form a column of mailboxes.

These units can be accessed by the U.S.P.S. when used in Rotary Mail Centers (see page 44).

PRIVATE
access

2212

2208

PARCEL LOCKERS

USPS or PRIVATE
access

Salsbury 2200 series parcel lockers offer tenants a convenient way to receive packages on site and are fit with a two (2) key security system. When the U.S.P.S. or an individual delivers a parcel to the locker, a parcel locker key is placed in the recipient's mailbox. Once the recipient opens the parcel locker, the key is automatically retained in the lock until it is removed with a control key. The units have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish and are equipped with a hinged rear door which allows access from the rear. Parcel lockers are designed to fit into the rack ladder and data distribution systems (see pages 38-39) and Free-Standing Mail Centers (see pages 44-45).

DROP BOXES

PRIVATE
access

Salsbury 2200 series drop boxes have a 1/4" thick extruded aluminum solid front with a durable powder coated aluminum finish. The one compartment drop box (#2280) has a 16" W x 3/4" H mail slot. The two (2) compartment drop box (#2282) has two (2) 9" W x 3/4" H mail slots. Drop boxes have a 4" high rear panel to contain the mail. Individual locking rear covers (#2285) are available as an option upon request. Drop boxes are designed to fit into the rack ladder and data distribution systems (see pages 38-39) and Free-Standing Mail Centers (see pages 44-45).

See aluminum mailbox options on page 39

Aluminum Boxes - Data Distribution System

DATA DISTRIBUTION SYSTEM PRIVATE SUCCESS

Salsbury 2400 series data distribution system aluminum boxes have 1/4" thick extruded aluminum doors with a durable powder coated aluminum finish. Each door includes a 3/4" high door slot, a five (5) pin cylinder cam lock with two (2) keys and is hinged horizontally at the bottom. Alternative locking systems are available - see aluminum mailbox options on page 39. Doors are available without slots upon request. The compartments have open backs (rear covers for a column of data distribution boxes #2451 and rear covers for individual data distribution boxes #2452 are available as options upon request) and are constructed of 20 gauge steel. All units have the same outside dimensions. Data distribution system boxes are designed to be installed between rack ladders (#2400). The rack ladders support five (5) units to form a column of boxes. Data distribution system boxes can also be used in Free-Standing Mail Centers (see pages 44-45).

2406
